Cadmus QA Notes 10/28/15, updated 11/2/15

"OK" = DOGGR online database agrees with Oct. 15 status column

Red text = higher-priority potential discrepancies to investigate

Blank cells = not yet checked

OK (DOGGR website status is Active, though last injection data are from June 2014)

OK

OK

OK (DOGGR website status is Active, though last injection data are

OK

OK (DOGGR website status is Plugged. June 2015 plug date does not appear in online well record, though approval to plug was granted in April 2015)

OK (DOGGR website status is Active and last injection data are from July 2015)

Letter of relinquishment does not appear in online well record. DOGGR website status is Active, though well appears to have been shut-in since last injection data reported in Aug. 2011.

OK

DOGGR website gives well type as WF, not WD; last injection data are from 2010 (when the well was WD). What is the current well

OK (DOGGR website status is Active, but volume injected since May 2013 is reported as zero)
OK
OK
OK
OK
OK (DOGGR website status is Active, though last injection data are from 2014)
DOGGR website status is Active. Last item in online well record is MIT report from 10/5/15. Was this well shut-in by 10/15/15?
DOGGR website status is Active, though map search preview gives status as Idle; last injection data are from Dec. 2014 and well appears to have been shut-in since then.

OK
OK (DOGGR website status is Idle, no injection data reported)
OK (DOGGR website status is Plugged and online well record includes Dec. 2014 approval to plug, though Feb. 2015 plug date does not actually appear in well record)
OK
OK (No injection reported in 2015; DOGGR website status is Active, though map search preview gives status as Idle)
DOGGR website status is Active. Does not appear that well is completely shut-in (some injection data were reported from Aug. 2015). In what zone is injection currently taking place?
OK (DOGGR website status is Active, though total volume injected since May 2013 is reported as zero)
DOGGR website status is Active and letter of relinquishment does not appear in online well file, though "stat" column in production record has been "Other (such as used for observation)" since last injection data reported in Feb. 2015

OK (DOGGR website status is Idle, though map search preview gives status as Active; last injection data are from Sept. 2009)
OK (no injection data since conversion to WF)
DOGGR website status is Active. However, there are no recent injection data reported -- last well data reported are actually production data from Aug. 2015 and, before that, SC injection data from 2012

DOGGR website gives well type as OG, not injection; last production data were reported from July 2015. Well record suggests that well was originally OG, then converted to injection, then converted back to OG in 2014. Should it still be considered an injection well?

OK (Last injection data are from July 2015)

OK

OK (DOGGR website status is New; no injection data reported)

OK (DOGGR website status is Active; no injection reported)
